PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of hands-on experience building high-performance web and mobile applications using React.js and React Native. Proven track record of delivering scalable, user-centric products across fintech, real estate, fitness, and supply-chain domains. Adept at leading frontend architecture, optimizing rendering performance, and integrating RESTful APIs. Comfortable working in Agile cross-functional teams and committed to clean, maintainable code.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript

State Mgmt

Redux, Redux Toolkit, Zustand, Context API

Dev Tools

Git, GitHub, VS Code, Expo, Android Studio

Frontend

React.js, React Native, HTML5, CSS3, XML

APIs & Data

RESTful APIs, Axios, Fetch API, Firebase

Soft Skills

Communication, Decision-Making, Multi-tasking, Team Collaboration

PROFESSIONAL EXPERIENCE

Senior React Developer

Jan 2025 – Present

Kale Labs · Lahore, Pakistan

- Lead frontend architecture and development of a scalable SaaS platform for supply-chain management and FMCG sales optimization.
- Designed and implemented responsive, accessible UI components ensuring seamless UX across web and mobile surfaces.
- Improved application load time and rendering performance through code splitting, lazy loading, and API caching strategies.
- Drove smooth frontend–backend integration, maintaining data consistency and system reliability across microservices.
- Collaborated with designers, backend engineers, and product managers in Agile sprints to align delivery with business objectives.

Senior React Native Developer

Oct 2023 – Jan 2025

TechXpert · Islamabad, Pakistan

- Contributed to multiple cross-platform mobile applications spanning diverse industry verticals.
- Built feature-rich modules including real-time maps integration, in-app voice/video calling, and push-notification pipelines.
- Architected global state using Redux Toolkit, reducing redundant re-renders by standardising selector patterns.
- Reduced app startup time by 30% through bundle optimisation, lazy-loaded screens, and minimised network round-trips.
- Partnered with UX designers and backend teams to ship high-performance, pixel-perfect mobile experiences.

React Native & React.js Developer

Aug 2022 – Oct 2023

724.One · Remote

- Developed and maintained several production-grade React Native applications from concept to App Store/Play Store release.
- Implemented Redux-based state management patterns ensuring predictable data flow across complex component trees.
- Handled asynchronous data pipelines using Promises and async/await, improving reliability of API-driven features.
- Profiled and resolved performance bottlenecks, cutting average screen-render time and minimising unnecessary re-renders.

Junior React Native & React.js Developer

May 2022 – Aug 2022

Dot Log · Pakistan

- Styled and composed core React Native UI components, contributing to a consistent cross-platform design system.
- Integrated React Navigation for multi-stack routing, enabling smooth in-app transitions.
- Consumed REST APIs with Axios and Fetch API to populate dynamic data screens.

React Native Developer (Internship)

Feb 2022 –
May 2022

Unit-G · Pakistan

- Applied fundamental UI/UX principles to build user-friendly mobile interfaces under senior mentorship.
- Actively participated in code reviews, internalising best practices around component structure and reusability.

KEY PROJECTS

SEREMO – Mobile Banking App

Secure digital banking platform supporting QR-code money transfers, international payments, mobile top-ups, account management, and real-time transaction history. Tech: React Native, Firebase, REST APIs.

ESTATEST – Real Estate Exam Prep

Interactive e-learning platform for real estate licence exam preparation featuring live/recorded classes, mock exams, instant results, performance analytics, and progress tracking. Tech: React Native, Redux, Node.js REST APIs.

Welcome Homes – Property Marketplace

End-to-end property buying and selling application with advanced search filters, map integration, detailed listings, and in-app buyer–seller messaging. Tech: React Native, Google Maps SDK, REST APIs.

Sorfit-10 – Smart Fitness App

Bluetooth-connected workout tracker providing real-time health data from fitness wearables, customisable training plans, and progress dashboards. Tech: React Native, BLE (Bluetooth Low Energy), REST APIs.

EDUCATION

B.S. Information Technology

University of Sargodha

2014 – 2018

Intermediate (I.COM)

Govt. College of Science

2012 – 2014

Matriculation (Science)

Govt. High School Manga Mandi

2010 – 2012
